# Erasmus+

# Seville: culture and leisure

Seville is located in the Andalusia region on the banks of the Guadalquivir River. Within 2 hours drive from Seville you can reach Granada, Malaga or Portugal. The town has a hot Mediterranean climate, with more than 300 days of sun a year in Southern Spain.

It has lately hosted international important events as the Expo in 1992 and the world championship in athletics in 1999 and was one of the candidates to host the Olympic Games in 2012.

MORE THAN  
300 DAYS  
OF SUN A YEAR

It's also has plenty of cultural heritage, starting from the Phoenicians and the Romans. For centuries ancient Moorish, Jewish and Christian cultures lived together in peace, leaving their mark on the city.

Old folkloric traditions are still alive such as flamenco, the Fair of April or the traditional Easter festivities. The tapas culture is also part of the Seville way of life.

**Museums, ancient monuments, theatres, music halls and festivals make Seville a perfect location for lovers of art & cultural heritage.**

# Who we are?

---

**ONECO - internship in Spain** was founded in 1997 as an educational institution based in Seville (Spain) that has organized European mobility programmes for more than nine thousand beneficiaries throughout national and international projects.

Our training programmes combine excellent language courses and practical experiences with the aim of enhancing and improving the professional skills of young persons, promoting their individual abilities and linguistic competences. We understand how important it is to help students to acquire entrepreneurship skills. For that reason, our participants are encouraged to improve their personal abilities to adapt themselves to new cultural environment and, most of all, enable them to immerse themselves into the labour market and face new situations out of a familiar context.

Apart from working with different European initiatives such as ESF Transnational Mobility Measures for Disadvantaged Youth and Young Adults, Youth Guarantee or Master dei Talenti, we are experts in **ERASMUS+ KA1 projects**.

## Our team

---

Our programme coordinators are professionals with long experience in the organization, follow-up and documentation management of European Internship Programmes. Their main duties are to assist and advise participants on daily issues regarding their stay, the search for practical traineeships, business interviews, assessments, certifications and to file a final report of the project.

# Our internship programmes

---

We organize different European programmes according to the needs of our clients.

Among the most popular, are the programmes ERASMUS+ KA1 for VET learners and staff, but we are also experienced in other European initiatives like and also National projects from other countries that send students abroad for professional immersion programme.

## Internships in real companies

We agree with the sending partner on all aspects of the training programme. Previous to the arrival of the interns, our Incoming Team analyzes the application forms and, after personal interviews via Skype, we select companies according to their academic background and their professional and language skills.

We accompany the participants to the interview and supervise all aspects regarding the internship programme. During the stay, we meet with the participants through different appointments for assessments of their experience and personal monitoring sessions. These meetings are essential to supervise the learning outcomes. At the end of the stay, we will arrange with the company the final project documentation.

## Internships at a Technical School Training Center

We know how difficult is to design a training programme for young students. We offer a Training Course for VET learners from 2 up to 4 weeks. The training courses will be mentored and certified by professional trainers of a Technical School in Seville.

## Staff mobility

ONECO can work with your institution to develop your project goals, build staff skills and ensure the success of the professional experience.

We run a series of training courses and technical exchange with experts of local companies and public institutions addressed to company staff, school and adult education staff across Europe.

**\*Do you have a different working plan? Please, tell us and we will develop your idea!**

---

# Our accommodations

We know how important quality accommodation is for our participants.

Comfort, cleanliness, safety and a good atmosphere. We are also conscious that each participant expects a specific type of accommodation, for this reason we put forward all our resources to ensure success during the stay in Seville.

Comfort Cleanliness Safety Good atmosphere

★★★★★  
Quality accommodation,  
constant monitoring and precise  
knowledge of the participants' needs  
are the guidelines we set to  
ensure success.  
★★★★★

All accommodations are carefully selected by ONECO. The most important criteria are localization and lodging. The interest showed by the householders in having a cultural and language exchange with people from other countries. facilities.

We offer Spanish host families (half or full board included) and shared apartments (self-catering) with other participants or locals

By special request and according to availability and budget, ONECO can also arrange the accommodations in touristic apartments, students' residence and hotels.

## OTHER FACILITIES

Local transports, airport transfers, pocket money etc are other services we can also provide!

# Our language courses

Our language school is located in the historic district of Seville.

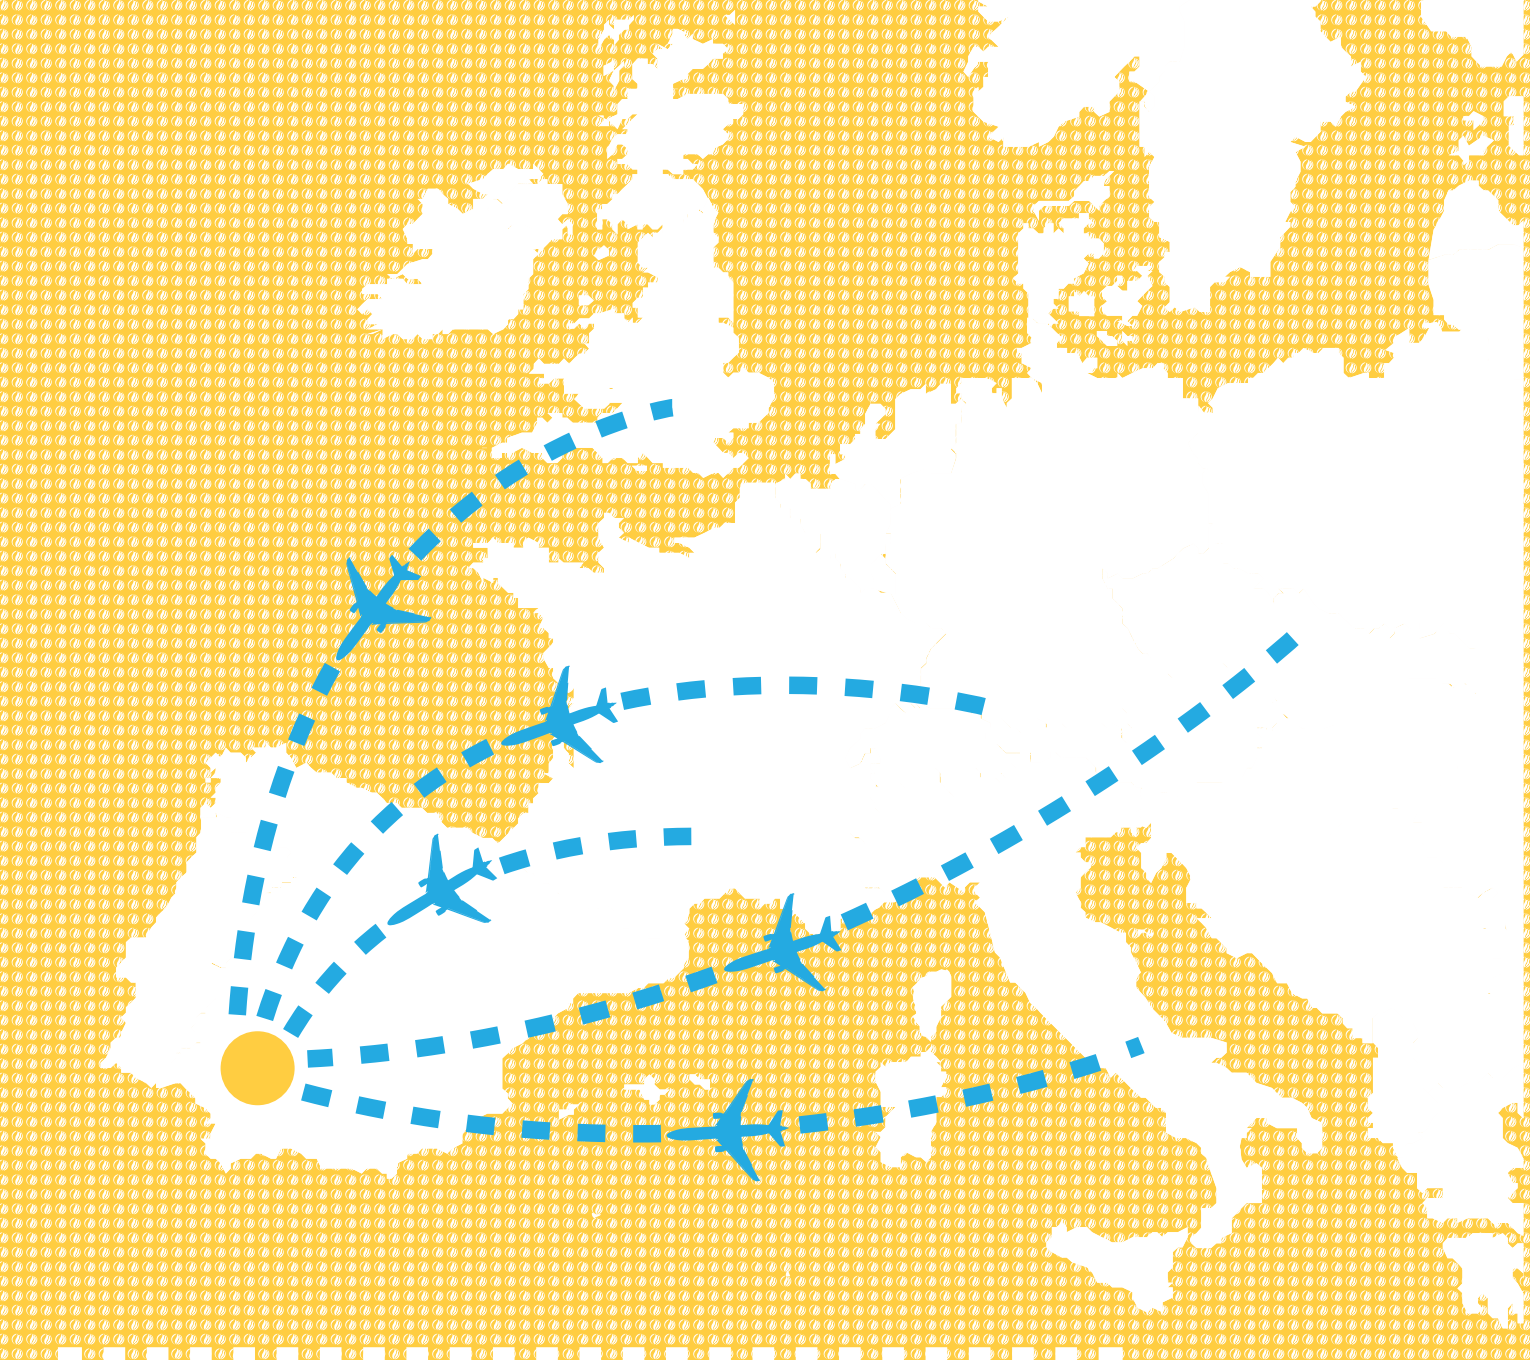

- We have a building perfectly equipped for teaching languages in the best and most comfortable conditions, a leisure area for students and a free Wi-Fi connection.
- We offer 6 different levels of Spanish with a maximum of 12 students per classroom. That guarantees optimal academic performance during the learning sessions.
- Our Spanish courses include two free cultural activities per week, a book and film loan service, personalized attention through tutorial sessions and a variety of optional weekend excursions.

Our Spanish courses include two free cultural activities per week:

- 1 Book and film loan service.
- 2 Personalized attention through tutorial sessions.
- 3 Variety of optional weekend excursions.

Our main goal is to achieve excellence in teaching quality, having the students as the focus and concentrating on their specific needs. Our methodology is put in practice by a team of Spanish native teachers specialized in ELE (the teaching of Spanish as a foreign language). Their extensive experience in Spanish teaching and the use of ICTs support bring a communicative focus to the classroom.
